Project Overview

The **wd-activity-based-learning** platform is designed to provide an interactive, visual, and engaging educational experience. By incorporating key modules—Dashboard analytics, gamified learning tasks, and physical fitness tracking—the platform promotes holistic progress monitoring and hands-on skill development.

1. Dashboard Section

The main landing dashboard displaying portfolio details, student profile summary, and core skill proficiencies.

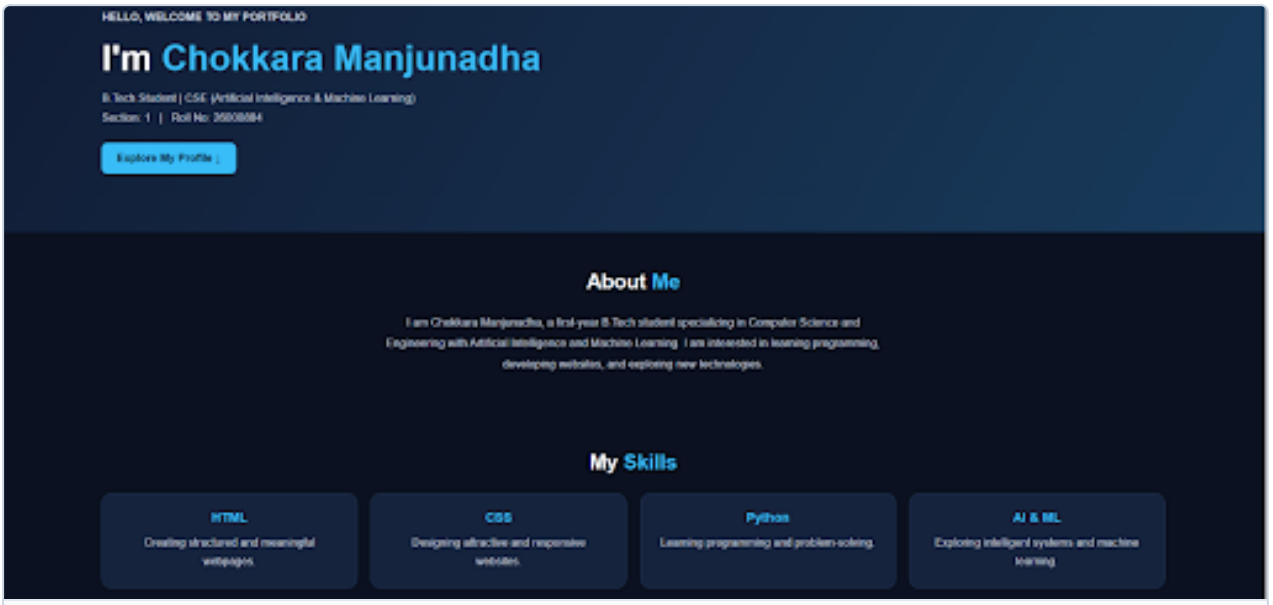

Figure 1.1: Portfolio & Main Dashboard Interface

2. Gaming Section

Interactive gaming portal ("Neon Zone") featuring featured modules like Action Arena, Speed Racers, and Galaxy Quest.

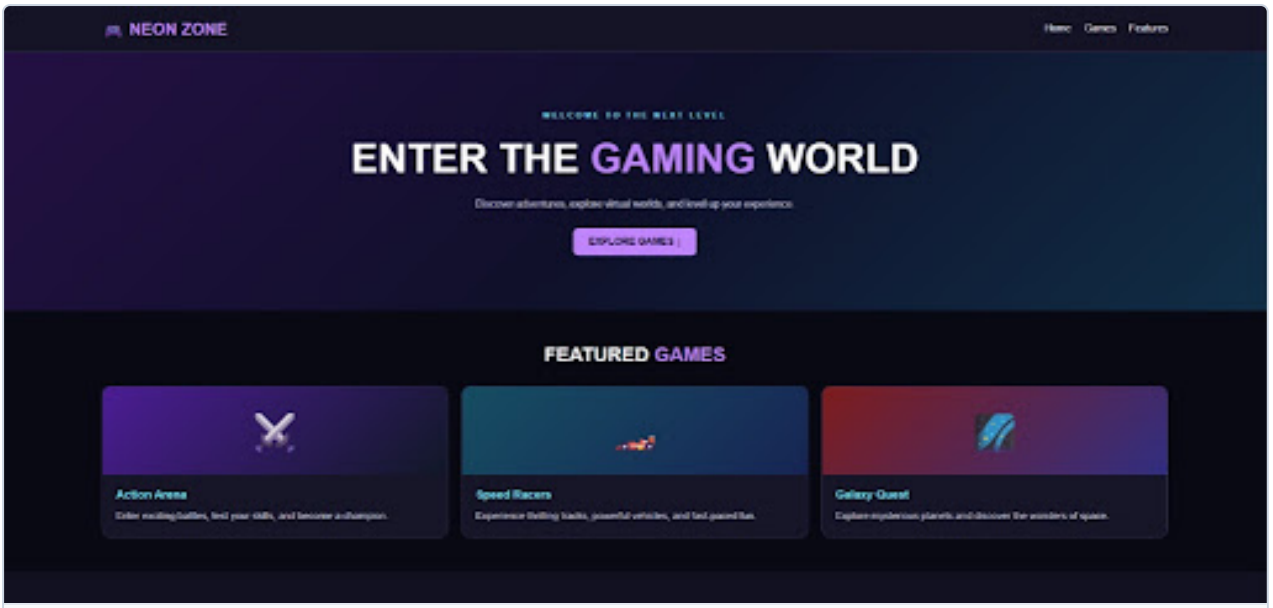

Figure 2.1: Neon Zone Gaming Module Interface

3. Fitness Section

Physical health and workout module ("IronFit") featuring workout categorizations including Strength Training, Cardio Fitness, and Yoga.
